## DETAILED ACTION

### *Drawings*

1. The drawings are objected to because in figure 5, part 24 does not appear to have any mechanism for engaging the ribs 48, as would be consistent with figure 3. A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

### *Claim Rejections - 35 USC § 112*

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 2-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 2 and 3 recite the limitation "said lateral movement track system" in lines 1 and 2. There is insufficient antecedent basis for this limitation in the claim. It is suggested the phrase be changed to --said lateral track movement system--.

Claim 5 recites the limitation "roof bow" in line 2. There is insufficient antecedent basis for this limitation in the claim. It is suggested the phrase be changed to "a roof bow".

Claim 5 recites the limitation "upper base" in line 3. There is insufficient antecedent basis for this limitation in the claim. It is suggested the phrase be changed to "an upper base".

Art Unit: 3612

Claim 5 recites the limitation "lower base" in line 7. There is insufficient antecedent basis for this limitation in the claim. It is suggested the phrase be changed to "a lower base".

In claim 8, line 2, it is unclear what is meant by the phrase "slidably associated to joined".

Claim 9 recites the limitation "lower lock" in line 2. There is insufficient antecedent basis for this limitation in the claim. It is suggested the phrase be changed to "a lower lock".

### *Allowable Subject Matter*

3. Claims 1 and 11 are allowed.

4. Claims 1-10 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

### *Conclusion*

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Brooks et al., Clark et al., Tiesler et al., Finneman, Rosen, and Hewko disclose vehicle track mechanisms.
